How to make a balloon wreath

Supplies:
Straw Wreath – any size is fine, we used 12 inch
Balloons – for a 12 inch wreath, you will need a total of 144 balloons – we used 6 colors, 24 of each color, 12 inch balloons work best
Floral Pins – available in the floral department at Walmart
Twine or ribbon for hanging
1.) First, if you are making the Rainbow Wreath, you will want to divide the wreath into equal sections with twine or ribbon. If you are making a multi-colored Balloon Wreath, there is no need to do this step.

2.) Place a floral pin on each balloon and push the pin into the wreath. Place them randomly and close together for the best look.

3.) Repeat until you have used all the colors!
