How to Make Rainbow Rice Krispie Treats

Ingredients Needed:
16 ounces marshmallows
6 tablespoons salted butter
7 ½ cups Rice Krispies cereal
6 colors food coloring

Supplies Needed:
8 x 8 inch baking pan
Non-stick foil
Cooking spray
Spatulas
Step 1: The ingredients will need to be divided by six, one for each color. For each layer, place 1 tablespoon of butter and 2 1/2 ounces of marshmallows in a large bowl sprayed with cooking spray. Microwave for 1 minute (or heat in a saucepan on the stove-top over medium-low heat).

Step 2: Remove from the heat and stir very well until the butter and marshmallow mixture is smooth. Add a few drops of your food coloring and stir well. Add more drops until desired shade is achieved.

Step 3: Stir in 1 1/4 cup of Rice Krispie treats using a spatula sprayed with cooking spray. Mix until the cereal is fully coated by the marshmallow mixture.
Step 4: Spread the colored mixture evenly over the bottom of the prepared baking pan. An off-set spatula sprayed with cooking spray makes this very easy to do.

Step 5: Repeat with the other colors, cleaning the bowl and spatulas each time. Start with purple, blue, green, yellow, orange, then red. (purple can be the hardest color)
Step 6: Let cool, at least 2 hours. Remove from the pan by grasping the edges of the foil and cut into squares.

Step 7: Enjoy!
